NASS on the World Wide Web

Periodicals, Publications, and Data on the World Wide Web

NASS has a homepage on the World Wide Web that provides easy access to the wide range of information and data produced. Through the homepage, you can obtain copies of all reports described in this catalog, commodity and price specialists, and more.

NASS Homepage -- <http://www.usda.gov/nass/>

Through a cooperative project with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service (ERS), and World Agricultural Outlook Board (WAOB) periodicals and data files via the USDA Economics and Statistics System on a web server. Over 400 reports annually and over 100 data files are available free of charge. All NASS reports and WAOB's World Agricultural Supply and Demand Estimates (WASDE) are available electronically within minutes of release.

A calendar of scheduled releases is available from the NASS Homepage by clicking on Publications. At the next screen, select Reports Calendar and choose the year and month. To view a combined schedule of releases from NASS, ERS, and WAOB, select the Search from the NASS Homepage and click on Calendar in the upper frame.

NASS Subject Specialists on the Internet

NASS maintains a listing of subject and commodity specialists for the various program areas. From the NASS Homepage, Click on Publication, then Contacts.

NASS Customer Service

NASS operates an information center, staffed 7:30 a.m. to 4 p.m. ET Monday-Friday, to assist you with accessing their reports and data via the Internet, autofax, or printed copies. Please call 1-800-727-9540.

Internet Published Estimates Database (PEDB)

U.S. and State information, published in NASS national reports, now is available in an online database via the Internet **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets for selected commodities. The database can be accessed from the NASS Homepage at:

<http://www.usda.gov/nass/> and select "On-Line Data Base".

County level data are also available via the PEDB. The data includes the total crop for each county and breakouts for irrigated and non-irrigated practices for many crops, for selected states. The county data include totals for the Agricultural Statistics Districts (county groupings) and the State. The county query is limited to five years because the dataset may be very large. The download data files contain planted and harvested area, yield per acre, and production.

Another method for customers to access crops county data is via pre-extracted files. The pre-extracted data files, in Comma-Separated Value (CSV) format, are available for the current year, as well as historic years 1980 to current. These files were extracted from the PEDB and contain only the total crop for each county.

Check the Census of Agriculture

There are many minor crops, livestock, and other statistics for which NASS does not produce annual estimates, but are included in the 5-year Census of Agriculture. See page 8.

Data Users Meetings

Give Us Your Feedback!

Over the past several years, NASS has sponsored annual U. S. Department of Agriculture (USDA) data users meetings in various cities to solicit comments and suggestions from users of statistical and economic reports issued by NASS, World Agricultural Outlook Board, Economic Research Service, Foreign Agricultural Service, and Agricultural Marketing Service.

These meetings provide an open forum where representatives of the data programs are available to answer questions about their agency's current programs and receive public suggestions for possible changes.

Proceedings are prepared from some of the meetings and provided to the participants.

The dates and locations vary annually, and will be announced when scheduled for 2002. These meetings are announced on the Internet at the NASS Homepage <http://www.usda.gov/nass/>; under "Coming Events and News" as soon as they are determined for the upcoming year.

Written comments concerning the data users meetings, questions, or requests for additional information are welcomed. Please direct comments or questions to Karlyn McCutcheon USDA-NASS, Room 5805 South Building, Washington, DC 20250-2000. Phone (202) 690-8141, fax (202) 690-1311, or e-mail hq_dapp@nass.usda.gov.

Free E-Mail Subscription to NASS Periodicals

Subscribe E-mail - Mann Library provides a **FREE** e-mail service for NASS reports. When a current report is released, it is sent via e-mail to the list of subscribers for that report. From NASS Homepage at <http://www.usda.gov/nass/>, select **Publications**. From the **Publications** page, the **Subscribe E-mail** button takes the user to the page describing e-mail delivery of reports. Click on **Go to the Subscription Page** and follow the instructions. It's as simple as clicking on the report name.

Subscriptions may also be obtained by sending an e-mail message to usda-reports@usda.mannlib.cornell.edu. In the body of the message put "Subscribe XXX, where XXX is the "Report Code" for each publication desired. To order NASS reports send an e-mail message to:

usda-reports@usda.mannlib.cornell.edu subscribing to the desired reports. As an example, user entries in the message for *Crop Production* and *Hogs and Pigs* would be:

NASSFax Information Service

This system is operated by the National Agricultural Statistics Service (NASS) of the U.S. Department of Agriculture as a service for users of NASS information. Documents available **FREE** through NASSFax are reports issued by NASS. In general, **current U.S. summary pages and report highlights are available via the NASSFax for selected reports by document number. The 1997 Census of Agriculture State Highlights are also available.**

NASS statistical reports provide estimates of production, stocks, inventories, disposition, utilization, and prices of agricultural inputs and commodities, and other items such as farm workers and labor statistics, and chemical usage.

Request **document number 0100** on the NASSFax for a **complete listing** of NASS report titles, stock number, and price information.

You may obtain a subscription to any of the full NASS printed reports by calling the ERS-NASS Order Desk at 1-800-999-6779. A free *NASS Guide to Products and Services* catalog is also available at this toll-free number upon request. Refer to the *NASS Guide to Products and Services* catalog for

a brief description of specific report contents.

It's quick and it's easy. Helpful hints:

1. Pick up the receiver on your facsimile machine (or a touch-tone telephone associated with your fax machine), dial 202-720-2000, listen, and respond to the voice prompts.
2. If you know the document number of the report(s) you desire, you can override the opening greeting by entering the document number as soon as the system answers.
3. You can request up to three documents in one phone call.
4. When answering system prompts, 9="yes" and 6="no."

Cropland Data Layer CD-ROM. NASS is proud to offer this GIS product to the public domain and more specifically for those involved in the agricultural sector of the nation's economy. These products are the final mosaicked output from NASS's Remote Sensing Acreage Estimation Program. Available on these CD-ROM's are categorized Landsat 5 & 7 data which is identified and labeled as specific crop types for the cultivated cropland areas of each state. Each set includes software for image browsing, the digital categorized mosaicked image of the State, and associated accuracy statistics. The images are available in ERDAS Imagine's .GIS and .IMG formats, for easy importing into most commercial GIS and image processing packages. Mosaicked precision registered images are available for Arkansas, Illinois, Indiana, Iowa, Mississippi, and North Dakota beginning in the years indicated on the map graphic. To obtain a copy, contact NASS Customer Service at 1-800-727-9540, or visit the Cropland Data Layer website at www.nass.usda.gov/research/Cropland/SARS1a.htm.

Survey Assistance to Other Organizations

In addition to the many statistical activities directly related to its mission, NASS conducts surveys for and lends technical expertise to other Federal agencies, State governments, and private organizations on a reimbursable basis.

NASS provides support and assistance in the areas of questionnaire and sample design, data collection and editing, analysis of survey results, and training. For further information contact the Survey Administration Branch at 202-720-2248.

NASS International Program Activities

NASS technical support is not confined to the domestic sphere since Agency specialists frequently provide assistance and training to other countries to help establish or improve their agricultural statistics programs.

NASS has been involved in international training and technical assistance activities for over 37 years. Assistance and training are provided to technical staff in other countries for improvement of individual skills and survey methodology to provide more reliable and timely agricultural information. NASS participates in reimbursable international training and technical assistance because they:

1. Allow for improvement of USDA's own assessment of food and fiber production capabilities and levels in foreign countries;
2. Assist the U.S. Government's efforts to help developing countries improve institutions that can help eliminate hunger and poverty; and
3. Develop NASS's human resources by exposure to other cultures and work situations.

For further information contact the NASS International Programs Office at 202-720-4505.

Data Products

NASS can prepare data to meet user specifications. Sponsors must reimburse all costs for specially prepared work. For further information, call the NASS Data Lab at 202-720-5414.

Agricultural Chemicals & Pest Management

Agricultural Chemical Usage. 4 issues. **Order # NASS-SUB-PCU-4027.** 1 yr, \$65.00; 2 yrs, \$170.00; 3 yrs, \$195.00. Prices are subject to change. 2002 subscription includes:

Field Crops: May 15. Available as a separate issue of the above subscription, **Order # NASS-ZCU-2002, \$33.00.** Chemical application rates and acres treated, 2001 crop by State and U.S. for corn, soybeans, upland cotton, and fall potatoes. Data will also be published on pest management practices utilized.

Fruits: July 17. **Order # NASS-ZFU-2002, \$47.00.** Chemical application rates and acres treated for selected 1999 fruit crops in major producing States (alternate years with vegetables). Data will also be published on pest management practices utilized.

Restricted Use Pesticides. 2001 Summary, October 2. Available as a separate issue of the above subscription, **Order # NASS-ZUP-2002, \$25.50.** Chemical application rates and acres treated for restricted use pesticides for selected field and vegetable crops in major producing States. This report is a summary of the restricted use pesticide ingredients reported in the previous two issues of "Agricultural Chemical Usage" for field crops, on an alternating basis either fruits or vegetables, and applicable livestock chemical use reports.

Pest Management Practices: **Order #NASS-ZPM-2001, \$25.50.** Percent of farms and percent of acreage receiving pest management practices during 2001 by region and U.S. for major crops.

Floriculture & Nursery: Available as a separate issue of the above subscription; **Order # NASS-ZND-2001, \$33.00.** The nursery and floriculture chemical use program estimates chemical use in six states for production in 2000. The estimates include, by chemical product formulation, to what and where the chemicals were applied, amount of chemicals applied, rate of application, method of application and who made the application, and pest management practices used on operations.

NASS Products and Services

Vegetables: Available as a separate issue of the above subscription; **Order #NASS-ZVU-2001, \$51.00.** Chemical application rates and acres treated for selected 2000 vegetable crops in major producing States. (alternate years with fruits). **This report is not part of the 2002 subscription.**

Postharvest Applications: Wheat. March 13. **Order # NASS-ZPH-2002; \$25.50.** Chemical application rates and quantity treated for wheat treated with pesticides following harvest.

Postharvest Applications: Peanuts and Rice. Order # NASS-ZPH-2001, \$25.50. Chemical application rates and quantity treated for crops treated with pesticides following harvest.

Trout Production. February 28. **Order # NASS-ZTP-2002, \$23.00.** Number of operations, grower sales, and fish losses for selected States.

Census of Agriculture

The Census is conducted every 5 years to obtain agricultural statistics for each county, State, and the Nation. Questionnaires for the 2002 Census of Agriculture will be mailed to farmers and ranchers in December 2002.

The Census is the leading source of statistics about the Nation's agricultural production and the only source of consistent, comparable data at the county, State, and national levels. The Census is authorized by law under Title 13, U.S. code, and is conducted in close cooperation with the Nation's agricultural user groups and farmer organizations.

The Census includes all places from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year.

Special Studies and Censuses are conducted as follow-on programs to the Census. They include a Farm and Ranch Irrigation Survey, an Agricultural Economics and Land Ownership Survey, a Census of Horticultural Specialties, and a Census of Aquaculture.

Volume 1, Geographic Area Series

CD-ROM Set - 1A, 1B, 1C. Census CD-ROM, Order # AC97-CD-VOL1, \$50.00. The 1997 Census of Agriculture State and county data are provided in this three CD-ROM set. The set includes software and manipulable data files. It also includes Adobe Acrobat Portable Document Format (PDF) files of the printed reports for each State and the U. S. Summary.

State and County Data. Separate State reports display statistics for the entire State and every county or equivalent. The United States Summary provides national data and selected data for each State. Data include number of farms; farm characteristics; livestock, poultry, and their products; crops; irrigation; operator characteristics; ownership; income; production expenses; chemical use; land use; and more. Reports cover 1997, with comparative data for previous census years. Additional reports are presented for Puerto Rico, Guam, the U.S. Virgin Islands, the Commonwealth of Northern Mariana Islands, and American Samoa. Available on Internet (www.usda.gov/nass/) and CD-ROM. The reports are also available in printed form as listed below.

Presents basic data from the 1997 Census of Agriculture including farms by size, land use, market value of sales, operator characteristics, livestock and poultry inventories, and major crops for every county and by State. Data provided for the current and previous Census years. Available on the Internet.

State and County Profiles. Based on results of the 1997 Census of Agriculture, describes changes in several key agricultural statistics also provides the rank of each county in the State and the Nation in crop acreage, livestock inventories, and sales. Graphics included. Available on the Internet.

Volume 2, Subject Series

ZIP Code and Congressional District (106th Congress) Tabulations. *Census CD-ROM disc. Order # AC97-CD-ZCCD, \$25.00.* Presents agricultural statistics by five-digit postal ZIP Code and Congressional district (106th Congress) in two separate files, for all farms in all 50 States. Tables show the total market value of products sold and the number of farms by size for land in farms, cropland harvested, selected crops, and inventory of cattle, calves, hogs, and pigs. Crops vary by State, and tables show number of farms by acres harvested for commodities such as tobacco, cotton, soybeans for beans, peanuts for nuts, and land in orchards.

Agricultural Atlas of the United States. Order # AC97-SU-1, \$25.00. Features a series of maps highlighting agricultural activities and characteristics such as farm number and size, selected crops harvested, livestock and poultry inventories and number sold, agricultural sales, production expenses, land use, irrigation patterns, fertilizer and chemical use, and machinery and equipment inventories. Displays some changes from 1992-97. Covers the United States, States, and counties. Available on the Internet and as a printed report.

Ranking of States and Counties. Order # AC97-SU-2, \$25.00. Ranks the leading States and counties for selected items from the 1997 Census of Agriculture. Items ranked include number of farms, value of products sold, inventory of livestock and poultry, and production and acreage of major crops. Most tables show data for 20 leading States and 100 leading counties. Also, most tables include the cumulative percent of the United States total as each leading State or county is ranked. Available on the Internet and as a printed report.
